

# AHV Migration Workshop

## Benefits

Accelerate your adoption of the Nutanix platform by leveraging experienced consultants

Jump start your migration solution deployment with Nutanix and virtualization expertise

Onsite or remote based on customer needs

## Pre-Requisites

Existing and functional Nutanix Platform running latest versions of AOS and AHV

One-time entitlements for migrations are for AHV-supported guest operating systems only, and up to one terabyte in total usable storage. Once a migration is performed, the entitlement cannot be reused.

Minimum network requirement is a 1GbE link between the source and destination

Portal access and support for entitlements is valid for one calendar year from the point the licenses are enabled

Full system backups before migration

System maintenance windows

## OVERVIEW

Nutanix AHV Migration Workshop Service enables you to migrate from physical servers or other hypervisors to Nutanix AHV Hypervisor. Included in the workshop are ten (10) one-time use migration software entitlements to migrate workloads from external environments onto AHV.

## SERVICE DESCRIPTION

An experienced Nutanix Services consultant will work with you and your IT infrastructure team to deploy the migration software to a Nutanix AHV cluster, demonstrate how to use the tool to perform migrations, and help guide and answer any questions around the migration process or the tool itself

## DELIVERABLES

- Migration project planning
- Requirements gathering and design review workshop
- Migrate up-to 10 VMs onto Nutanix
- Test & validation of the migration
- Migration process documentation
- Knowledge transfer

## AHV MIGRATION SERVICE

The scope of this Service is limited to the following activities:

- Review the Nutanix AHV environment and determine suitability for targeted migration workloads
- Provide a workshop up to two (2) hours discussing and reviewing AHV features and functionality
- Install the migration software on the Nutanix cluster and provide an installation guide
- Demonstrate and provide documentation on how to use the migration software and common relevant use cases depending upon customer requirements (Physical workloads, or virtual workloads currently hosted on VMware vSphere, Microsoft Hyper-V, or XenServer).
- Demonstrate the process to consume the migration software entitlements and use the migration portal for checking on entitlements or how to open a migration support case.
