

### SIMPLE MANAGEMENT

- Deploy in a few clicks and manage out of Prism (our unified management plane)
- Start small and scale as your needs grow

### ONE-CLICK PERFORMANCE OPTIMIZER

- No more tedious NAS performance monitoring or troubleshooting
- Accept recommendations for one-click performance optimizations

### NO MORE NAS SILO

- Easily consolidate VMs and unstructured file data
- Get simpler infrastructure stack

### SCALABLE SOLUTION

- Scale up or Scale out on demand—easily and invisibly
- Scale from 100's of users to tens of thousands of users
- Store billions of files and PBs of data

### ENTERPRISE-GRADE POWER

- Get High Availability and Native DR.
- Run both SMB or NFS protocols

# 5 BIG BENEFITS OF AFS

Acropolis File Services (AFS) is a software-defined, scale-out fileserver built to be highly resilient and fault tolerant with all enterprise functionalities.
